

The background features abstract, overlapping geometric shapes in various shades of green, ranging from light lime to dark forest green. These shapes are primarily located on the right side of the slide, creating a modern, layered effect. The text is centered on the left side of the slide.

We are the Eco Committee
Good morning KS2!

Eco Tree

- uThe Eco Tree holds pledges from the children of Friar's Grove
- uIt is important that we all try and help the environment by pledging little things we can do to help.

You could help by:

- urecycling your food waste
- uBring in eco friendly bottles/reusable
- uStop littering outside
- uTurn off taps and lights

Friar's Grove Bug Hotel

We have created our very own Friar's Grove Bug Hotel!
This will provide a nesting opportunity and hibernation place for many insects.

- It will increase insect diversity in the area and help to naturally restart important ecosystems...
- Like soil formation, pollination and nutrient recycling.

We even have a bug hotel... Dun dun duh!!!
We have a newt called Leosayit Often in our pond.
Bug shelters are a great shelter for animals, it should be called the animal hotel (Ryan finds the best animals).

Disco Disco! Ryan & George created a disco floor & that is where we put our 1st snail.

NOTE: make a bug hotel and send a photo in on Class Dojo.

Ryan even made a bug boat!

Food Bins

- u The Eco Committee wrote letters to our PTA to ask them to donate funds to buy new bins for our playgrounds
- u They said YES! So we will be getting some HIPPO bins
- u The Green bin is for the food waste
- u The Red bin is for everything else
- u REQUEST FROM OUR CATERING TEAM. PLEASE PUT **FOOD WASTE ONLY** IN THE FOOD BINS
- u Our food waste is then collected, processed and transformed into fertiliser

Eco-School
Merit | 2023-2024

**Eco Schools congratulated
us** on achieving an Eco-
Schools Green Flag with **Merit**.
Achieving accreditation
demonstrates that we have gone
above and beyond to improve
our local community and protect
our planet

Our School Grounds

- u Our school grounds need to be looked after by us all.

You can do this by:

- u Always putting your rubbish in the bins provided
- u Be careful not to tread on wildlife or insects when you walk
- u New food bins will be arriving to collect your food waste so it's not mixed up with general waste.
- u Remember to turn off lights and taps when not using them to save energy around school.

Keep Britain Tidy

SOME FACTS!

425,626 bags pledged during the Great British Spring Clean

The Deposit Return Scheme (DRS) was delayed which lead to 25 billion bottles and cans being littered, buried or burned

72 of the country best beaches will proudly fly a blue flag this summer

#litter heroes Ambassador gets prime ministers award

Our partners help us keep Britain Tidy

u As well as reducing waste in school, another way to help our planet is to walk to school rather than come by car.

- u Walking is a perfect way to **reduce CO2 emissions** which are harmful to the environment.
- u Walking to school even once or twice a week really makes a difference - it's good for you and good for the planet as it helps keep the air cleaner.
- u It **reduces stress** and helps us start the day with a calm mind too.

We have trees, we have bees!

Our Bee garden is thriving and attracting lots of our stripy friends! We have also planted some young trees on the edge of the school field.

Trees benefit the environment - they **absorb carbon dioxide** as they grow and the carbon that they store in their wood helps slow the rate of global warming.

Where trees and woods are essential to filter our air, bees are vital to both pollinate the food we need to survive and pollinate many of the trees and flowers that provide habitats for wildlife.

WELL DONE FRIAR'S GROVE!

We are all helping to increase awareness of global warming and pollution and together we can achieve a greener future!

Help the Eco Committee to continue the challenge!
